

CHEROKEE PARK

Cherokee Park is characterized by long winding roads opening to beautiful vistas, and large open spaces set in the valley of Beargrass Creek. Woodland areas were incorporated into the design and edge plantings were added to soften the transition from open space to woodland. Mr. Olmsted referred to Cherokee Park as a beautiful sample of the celebrated 'bluegrass country of Kentucky'.

Trail System

- Multi-Use Paved
- Multi-Use Natural
- Hiking Only
- Scenic Loop/One Way
